LANSCAPE CHANGES
SPAIN AND EUROPEAN CONTINENT

UDI 3

Profe Juan Carlos 2016-2017

1. LANDSCAPES

A landscape is all the elements you can see in a specific area

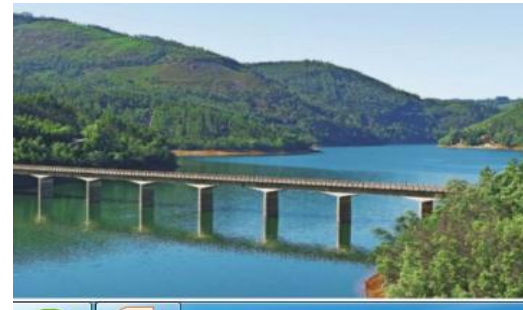

NATURAL LANDSCAPES

- Are made by nature and humans have not changed them.
- Have natural elements

MAN-MADE LANDSCAPES

- A landscape that humans have changed with artificial elements: crop fields, roads, houses, bridges,...
- Can be **RURAL OR URBAN**

2.LANDSCAPES CHANGE

Landscapes change over time due to natural reasons and man-made changes

NATURAL CHANGES

- Snow, wind, water and drought can modify landscapes

MAN-MADE CHANGES

- People modify landscapes when they build artificial elements:

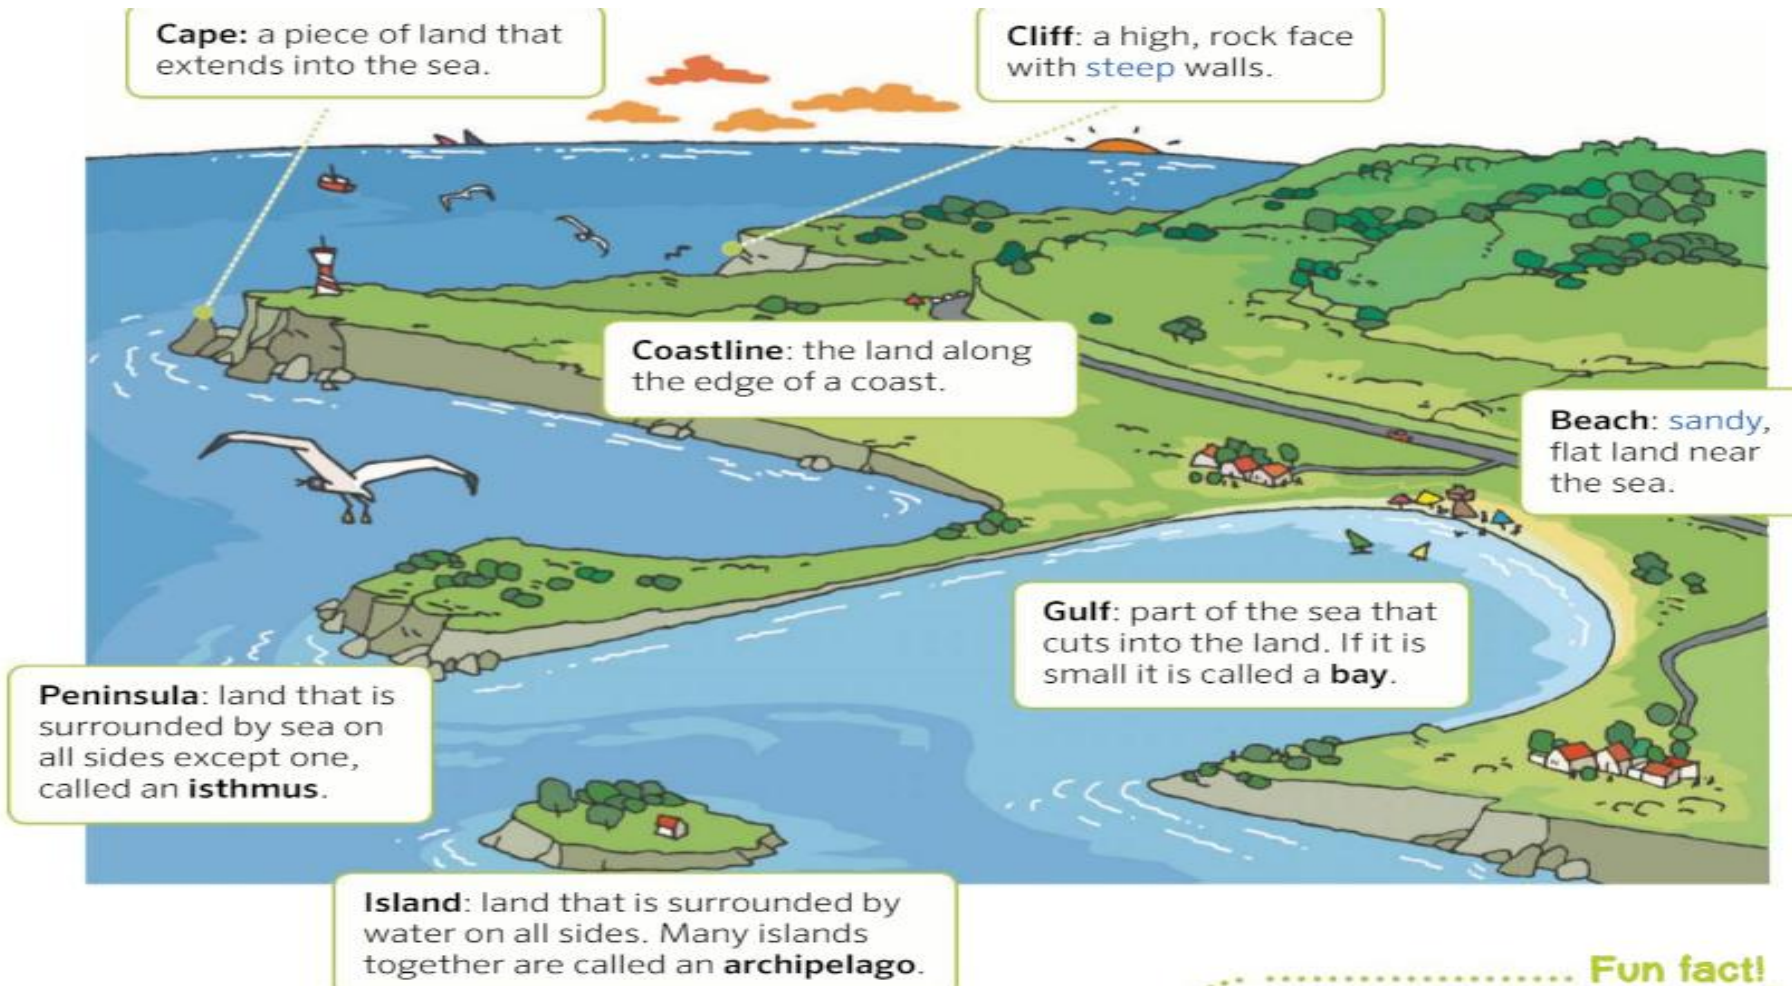

HARMFUL CHANGES

- **Intensive farming:** pollute landscapes
- **Rubbish:** pollute soil, water and air
- **Cutting down trees:** have negative effects on vegetation

3. LANDSCAPE RELIEF

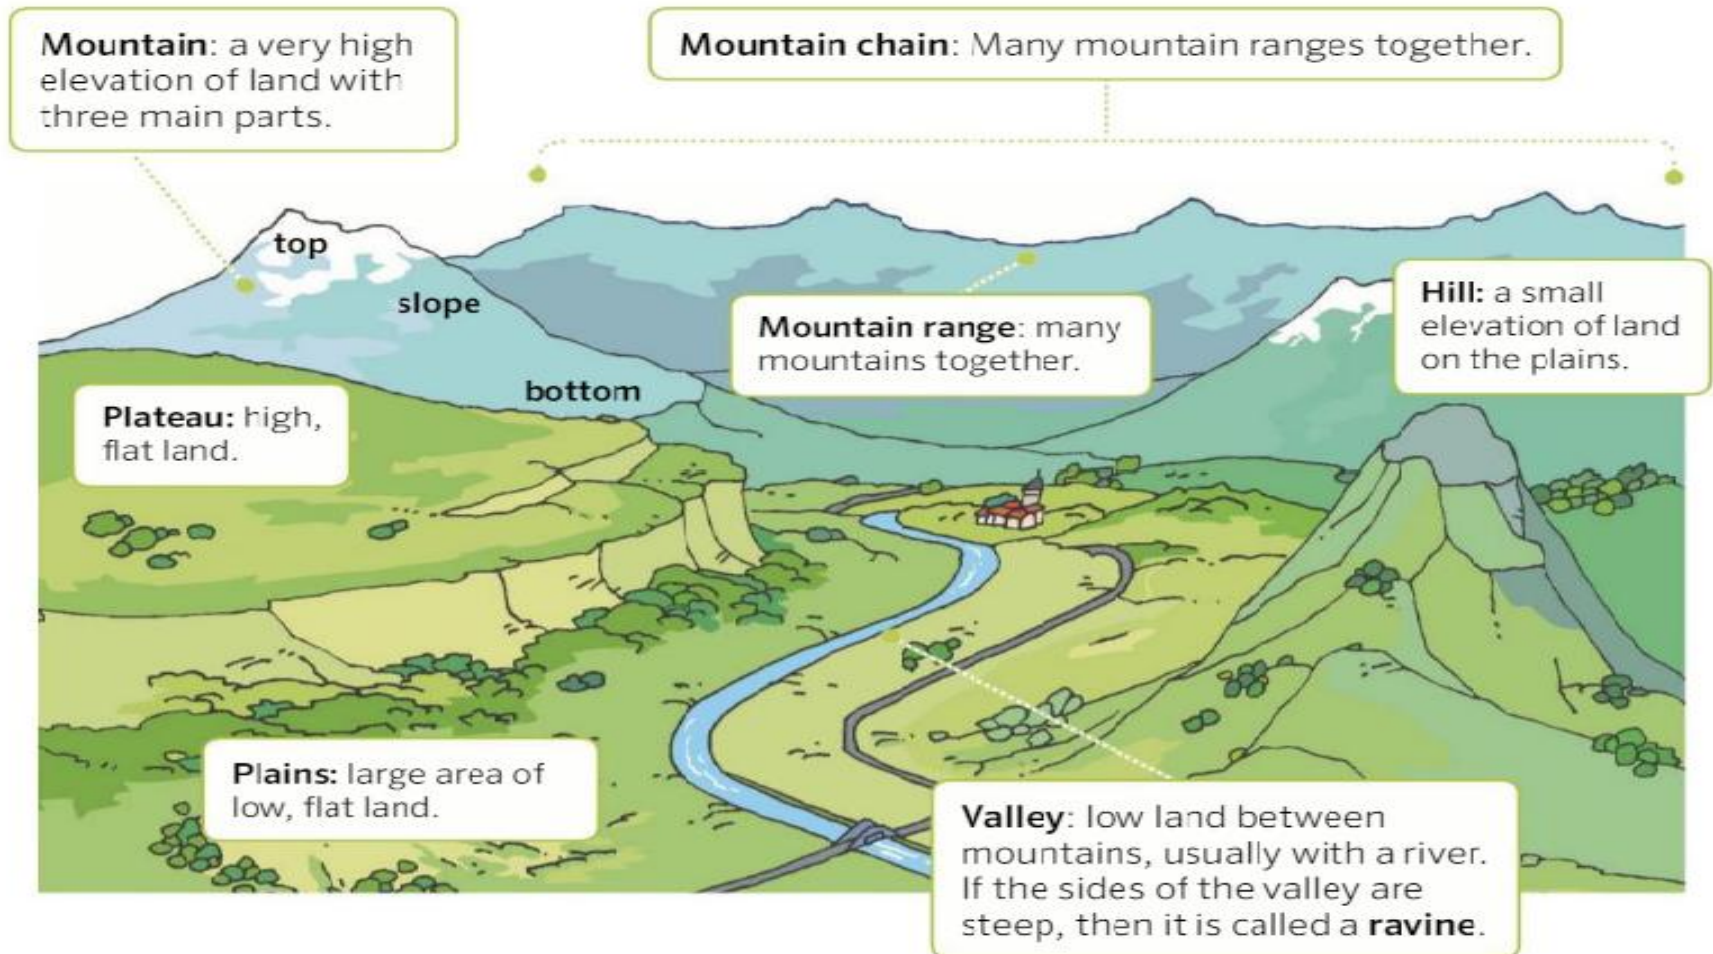

A) COASTAL RELIEF

..... **Fun fact!**

3. LANDSCAPE RELIEF

B) INLAND RELIEF

4. THE RELIEF OF SPAIN

A) DIVERSE RELIEF: rivers and mountains of Spain

5. EUROPEAN COUNTRIES AND THEIR CAPITALS

Paris is the capital of France.

London is the capital of the United Kingdom.

Berlin is the capital of Germany.

Rome is the capital of Italy.

Moscow is the capital of Russia.

Warsaw is the capital of Poland.
