UNIT 3.

The landscape of Spain

1. The relief of Spain

Plateaus

Meseta Central is divided in two parts:
Submeseta Norte and
Submeseta Sur

Archipiélagos

-**Balearic Islands**, in the Mediterranean Sea
-**Canary Islands**, in the Atlantic Ocean

Mountains surrounding the Meseta

-**Sistema Ibérico**, **Sierra Morena**, **Macizo Galaico** and the **Coordillera Cantábrica**

Depressions

Areas of low land crossed by rivers.

-**Depresión del Ebro**
-**Depresión del Guadalquivir**

Mountains within the Meseta

-**Sistema Central** and the **Montes de Toledo**

Mountains outside the Meseta

-**The Pyrenees** and the **Sistemas Béticos**.

2. The rivers of Spain

Rivers of the Cantabrian watershed

-Navia, Narcea, Nervión and Bidasoa

Rivers of de Mediterranean watershed

- **Ter, Llobregat, Turia, Júcar, Segura, Almanzora and Andarax.**
- The **Ebro**, the largest river in Spain

Rivers of the Atlantic watershed

- Tambre, Ulla and Miño** in the northest
- Duero, Tajo, Guadiana and Guadalquivir.**

3. The landscape of Spain

The different landscape depends on three factors:

- Altitude
- Temperature
- Precipitation

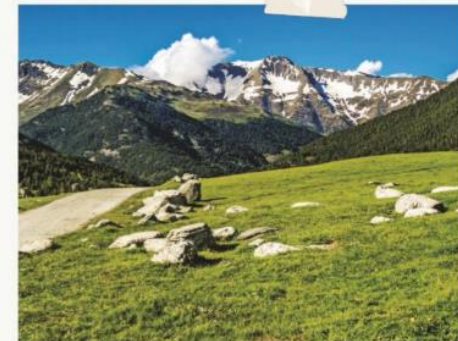

They can be divided into **four groups**.

Mediterranean landscape

Atlantic landscape

Mountain landscape

Canary Island landscape

3. LOS PAISAJES DE ESPAÑA.

4. Taking care of the environment

Environmental problems

Rubbish and waste

Depletion of resources

Smoke emissions

Environmental protection

Reduce

- **Reduce** the use of raw materials, water and consumer goods.
- **Reduce** the use of energy and the **release** of CO₂ into the atmosphere.

Reuse

- **Reuse** natural resources like water when it is possible.
- **Mend** something so that it lasts longer or use it in another way.

Recycle

- **Recycle** to avoid the **harm** done by eliminating waste (gases and other toxic substances).
- **Separate** waste to make it possible to reuse materials like paper, glass and plastic.
